Our Campus
CSI students experience the best of all worlds. Our picturesque 204-acre campus, the largest single campus in the five boroughs, features the Great Lawn, athletic fields, sculpture and seating areas, all surrounded by mature woodlands. Fourteen buildings house classrooms, laboratories, instructional spaces, study lounges, and offices.

Honors Programs
The College of Staten Island offers a number of honors programs, learning communities and undergraduate research opportunities. Our programs range from the Macaulay Honors College: University Scholars Program, which provides high achieving students with a special honors curriculum of innovative and challenging courses during the first and second years of study, to The Verrazano School, a program designed to offer students a unique undergraduate education through academically motivated learning communities. The Teacher Education Honors Academy at CSI is designed for select students passionate about mathematics and science who want to teach those subjects to middle and high school students. All offer merit-based scholarships.

These and other competitive programs challenge highly motivated students to reach new academic heights.
