

Math Tutorial Laboratory 1S-214

Contact Information:
Louis Blois, Tutoring Coordinator
718.982.3619

The Math Tutorial Laboratory provides a friendly and conducive atmosphere for the study of mathematics. Free walk-in math tutoring is available in all developmental courses (Math 015-030) and 100 and 200-level math courses. During each hour of operation, at least two tutors (and often more) are on duty and no appointment is necessary. Tutoring is offered on a one-on-one basis as well as in small groups. Students are welcome to borrow from the extensive library of mathematics texts found in the Center. The Center also houses two video playback machines and a small library of math tutorial videotapes which students may view on the premises. We welcome all students who are registered in a math course at CSI.

Biology Tutorial Center 1A-108

Contact Information:
Lisa Ghigliotti, Tutoring Coordinator
718.982.3958

The Biology Tutorial Center assists students in their studies of the biological sciences. The Center provides one-on-one tutoring on a walk-in basis for Biology courses ranging from Bio 102 and up. It also provides various biology-related resources available for those students who wish to work on their own. Reference materials such as textbooks, lab manuals and atlases are available for review upon request. Other resources include charts, models, bones, microscopes, slides, videotapes and CD-Rom's. The schedule is posted on the Center's door in building 1A, Room 108C.

Media Culture Tutoring Lab 1P-122 (Film & Video) 1P-231 (Digital Communications)

Contact Information:
Jeanine Corbet, Tutoring Coordinator
718.982.2542

The Media Culture Department offers study sessions designed for students enrolled in cinema and communications. The sessions are designed to bridge the gap between the

theory and application of professional production techniques by helping students become more familiar with the equipment and applications introduced in their classes.

Working in group sessions or individually with a tutor, students are able to apply their classroom knowledge to the processes involved in multi-media production in a supportive and informal setting. Topics covered include digital video and 16mm film production, introduction to the Macintosh work environment, non-linear editing, web design, digital photography, graphic design and web animation. In addition to technical instruction, our tutors are available for providing consultation on creative projects.

All study sessions are held in the Film/Video Lab (1P-122) or the Digital Communications Lab (1P-231) which are equipped with Macintosh computers, printers, scanners and a full complement of audio, video and film production gear. Equipment manuals, industry trade magazines, classroom texts, CD and DVD tutorials are also available for student use. Please call in advance to make an appointment.

Tutoring Center at Disability Services 1P-101

Contact Information:
Chris Cruz-Cullari, Director, Disability Services
718.982.2510

The Office of Disability Services offers tutoring in all subject areas. We focus on basic skills—reading, writing, and math -- and provide tutoring in other subject areas upon request.

The Tutoring Center does not accommodate walk-ins. Students requesting tutoring are advised to fill out an application, which is available in 1P-101. A tutor will then be assigned to the student for a minimum of one hour per week, per subject.

In addition to the helpful tutoring staff, the Center also possesses an extensive array of software and equipment specially designed to assist students with various learning and physical disabilities. Students are urged to call or visit for more information.

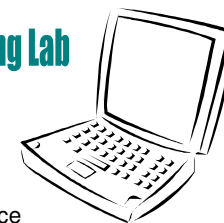

CASA Center for Academic Student Assistance 1L-117 / 1A-108

Contact information:
Jason Turetsky, Assistant Director/Support Initiatives,
Office of Academic Support
718.982.3962

The Center for Academic Assistance (CASA) offers free drop-in tutoring in many academic subjects, including: English, math, chemistry, physics, engineering science, psychology, accounting & finance, geology, astronomy, philosophy, medical dosage, history and Core.

With two convenient tutoring locations in 1L-117 and 1A-108, the CASA strives to accommodate even the busiest of student schedules with day, weekend, and evening hours of operation. Both labs are equipped with a number of computers installed with MS Office, C++ and other academic software.

Computer Science Tutoring Lab 1N-113

Contact Information:
Department of Computer Science
718.982.2850

Tutoring for 100-level and 200-level computer science courses is offered in the open lab in 1N-113. Tutors can assist students in understanding computer science concepts, and in completing/debugging programming and application assignments. Computers are available in the open lab for students.

Hours vary by semester and are posted on the door of 1N-113 and the door of the Computer Science department main office (1N-215).

The Writing Center 2S-216

Contact information:
Bob Brandt, Tutoring Coordinator
718.982.3635

The Writing Center, under the direction of the English Department, offers tutoring to students at all levels and in all subject areas, with a primary focus on writing and reading skills. Our basic approach is to help students improve their skills by providing them with meaningful feedback and guidance. We are here to help each student thoroughly fulfill his or her own potential through a better understanding of course requirements, assignments and readings.

To meet our goals, we offer several modes of tutoring. Students with regularly scheduled appointments meet for one class period (50 minutes) a week with a designated tutor, sometimes one-on-one and sometimes in small groups that include up to three other students in the same class or at the same level. Drop-in tutoring requires no appointment. Tutors are available during drop-in hours to assist students with immediate concerns regarding a specific assignment.

The Writing Center also offers the following:

- Conversation groups for ESL students
- Tutorial workshops for students who have completed all available developmental courses but require further assistance to pass their writing and/or reading Basic Skills Tests
- Miscellaneous study groups and workshops (on a semester-by-semester basis) based on the needs and interests of the students

Our hours vary slightly from semester to semester. If you wish to receive our current schedule, to file an application for regularly scheduled weekly tutoring or to simply find out more about the Writing Center, either visit us in 2S-216 or call us at 982-3635.

The Nursing Neighborhood 5S-119 (Resource Center) 5S-121 (Test Prep Center)

Contact Information:
Dr. Natalie Fischetti
718.982.3827

Nursing Student Mentors are available to help students with educational resources, test-taking skills preparation and computers. Students may walk in or reserve a time slot for a study group table, computer access, or to utilize the interactive Listening Center. Additional services include: weekly class study and review, test-taking enhancement workshops and access to reference books, free magazines and software programs. Visit the Nursing Neighborhood for more information, including a complete schedule of offerings.

SEEK Learning Center for Academic Support 1A-108

Contact Information:
Ralph Pagan, Coordinator for Academic Support
718.982.2412

The SEEK Learning Center for Academic Support (SLCAS) offers a variety of programs in order to enhance students' academic performance.

- Tutoring encompasses courses from developmental to upper levels depending upon the individual student's needs.
- Intensive review workshops are held in order to prepare students to pass the CUNY Assessment Tests in reading, writing, and math. Additional workshops conducted by tutors focus on improving study skills, coping with test anxiety, note-taking, etc.
- CLUE-certified computer workshops are also offered throughout the academic year to both SEEK and non-SEEK students. The SEEK Computer Lab is available to students for a variety of academic needs. Supplemental Instruction sessions led by master tutors or adjunct faculty are also offered by the SLCAS.

Modern Languages Media Center 2S-114

Contact Information:
718.982.3711

The Modern Languages Media Center at CSI provides a great variety of aids for the learning and teaching of foreign languages.

- The MLMC offers a wide range of audio/visual equipment with multi-regional capabilities, as well as a state-of-the-art multimedia computer facility (Windows XP).
- The MLMC offers several word processing programs with the ability to spell-check, and in some cases, even check on lexical and grammatical topics. The MLMC is also a comprehensive computer-based testing facility, providing placement testing for students either entering or exiting language courses, as well as support for the oral component of all levels of language.
- Students also have access to available application programs that accompany courses that are offered in our department.
- The MLMC offers tutoring services in all languages offered at CSI with one-on-one and group sessions.

The MLMC is generally open Monday through Friday, from 9:00 AM to 9:00 PM (Monday through Thursday, 8:30 AM to 6:30 PM, during summer sessions), and on select Saturdays throughout the semester. For more information, please visit our website: www.ml.csi.cuny.edu/lab.
