March 10 from 10 - 11 AM

WORKFORCE DEVELOPMENT AND INNOVATION

Campers can unleash their creativity this summer when they are empowered to be as creative as they were all born to be! Every program is powered by the campers' imagination, and designed to bring their ideas to life in a fun, hands-on, learning program based around science, technology, engineering, art and math. STEAM activities will prepare students for success in the upcoming school year and beyond.

From concept to creation, students will demonstrate their masterpiece to the world at the end of each week!

Camp Dates: July 9 - August 16

Features:
- Camp hours 9:00 am to 4:00 pm
- Choose from Full Day or Half Day Camps (Morning: 9:00 am- Noon/ Afternoon: 1:00 pm to 4:00 pm)

**July 9 - July 12**

**Minecraft® Modders**
Modify and create your own Minecraft® characters, tools, mods, and more.

**Minecraft® Designers**
Fill a Minecraft® world with your own custom designs and creations.

**July 16 - July 19**

**Roblox® Make Your Own World**
Make your own Roblox® world. Code the world yourself. Share your world with friends.

**Digital Storytellers**
Design a storyboard and create your own digital tale where you’re the star.

**July 23 - July 26**

**Code Breakers**
Learn how to use code in making your ideas become reality.

**App I.O**
Become a creator of the next viral web app and share with family and friends! In this class you will design your own multiplayer experience and how to code your own I.O app.
July 30 - August 2

**Make Your First Video Game**
Create your first platformer video game using characters that you choose.

**Video Game Animation**
Dive into making your own animated character move around and animate in a video game.

August 6 - August 9

**Drone Adventures**
In this hands-on interactive class you will learn how to fly and drive drone robots. Working in teams you will code your drone to complete missions.

**Roblox® Make Your Own World**
Make your own Roblox® world. Code the world yourself. Share your world with friends.

August 13 - August 16

**Virtual Reality**
Create your own virtual worlds, explore simulated environments, and craft memorable 3D experiences.

**Make Your First 3D Video Game!**
Make your own fun and challenging 3D game with industry grade software.
