The Department of Engineering & Environmental Science (EES) at the College of Staten Island of the City University of New York (CUNY) invites applications for a Lecturer position in the Earth & Environmental Science program. The broad areas of petrology, geochemistry, hydrogeology, structural geology, paleontology, and oceanography will be considered. The general duties of this position are to teach 12 contact hours in our Earth & Environmental Science program each academic semester. To develop new courses/laboratories in EES as per department chair direction and serve the department in various departmental and/or college committees. In addition she/he is expected to share responsibilities in advising students in the program as well share in providing guidance and supervision to our CLT in the EES discipline. The position begins late August 2022.

The Department of Engineering & Environmental Science has a full-time faculty of 15 with over 15 part-time faculty members. On the Environmental side it offers BS degrees in Earth & Environmental Science and Earth & Environmental Science K-12, and a minor in Geology. On the Engineering side it offers the Bachelor of Science degree (BS) in Engineering Science (ENS) (with Mechanical (MechE) and Computer Engineering specializations) and the BS in Electrical Engineering (EE) and both degrees are ABET-accredited. An Associate degree in Science (AS) in Engineering Science (with EE and MechE specializations) as well as a Masters in Engineering (ME) in Electrical Engineering and a Masters of Science (MS) in Environmental Science are also offered. The PhD program in Environmental Science is administered by and through the CUNY Graduate Center and the PhD programs in EE and MechE are administered through the City College of NY (CCNY) with which our department is in close collaboration. Currently the department has over 600 students enrolled in all of its programs.

The College of Staten Island (CSI) is a senior College organized around two academic divisions and three schools, with over 14,000 students. CSI offers a broad range of academic programs in the liberal arts, sciences and professional areas. CSI awards associate, bachelor and master degrees. In collaboration with the CUNY Graduate Center numerous PhD degrees are offered. CSI's internationally recognized faculty passionately engages in scholarly and artistic activities, and together with a strong professional staff, lead students through transformational learning experiences both inside and outside of the classroom.

The College is situated on a 204 acre site, has a residential component and is currently engaging in capital expansion. It is a hub of intellectual and artistic activity, a community partner and source of economic impact and job creation for the greater Staten Island area.

QUALIFICATIONS

A Master's degree in any of the above areas of Earth and Environmental Science or other cross-disciplinary field such as Environmental Engineering and/or Science. The candidate should be able to demonstrate an ability to successfully teach and mentor undergraduate students. The Department seeks an individual with good leadership skills that is willing to work to continue strengthening our Earth and Environmental Science program, expanding it K-12 component and participating in the MS in Environmental Science.

Preferred Qualifications: A Ph.D. in any of the above areas of Earth and Environmental Science or other cross-disciplinary field such as Environmental Engineering and/or Science with expertise in any one of the above research areas.
COMPENSATION

CUNY offers faculty a competitive compensation and benefits package covering health insurance, pension and retirement benefits, paid parental leave, and savings programs. We also provide mentoring and support for research, scholarship, and publication as part of our commitment to ongoing faculty professional development.

HOW TO APPLY
