The Advanced Certificate in Cultural Competence program at CSI is the first of its kind in the country. It has been developed and designed to help health care professionals:

- Advance and revitalize your career
- Increase your earning potential, marketability, and promotional opportunities
- Meet the health care and educational demands of an increasingly diverse population
- Meet accrediting agency and professional association mandates for cultural competence education

**Notable Features of CSI Advanced Certificate Program**
Developed and taught by an international scholar in Cultural Competence, CSI’s program is unique in many ways.

- The first and still one of the only advanced certificate programs in cultural competence
- Accredited by New York State Department of Education
- Taught by internationally renowned scholar
- Combines a variety of interactive teaching-learning activities online
- Online program* completion in 1 academic year (Fall, Winter, Spring), 3 courses total
- Individualized student projects and papers according to students’ area of interest
- Assistance with library and online resources

**Who Should Enroll?**
- Students currently enrolled in masters or doctoral programs
- Nurses with baccalaureate, masters, or doctoral degrees working in practice or academic settings
- Health care professionals with masters or doctoral degrees working in practice or academic settings

**Course Schedule***

*Dates approximate. Final Fall 2021 CUNY calendar is expected by mid-March 2021.
Final Spring 2022 CUNY calendar is expected by mid-October 2021. Online program pending NSYED approval.
