FINDING FUNDING

NEH
National Endowment for the Humanities
Grant Programs and Deadlines:
http://www.neh.gov/grants/grants.html

Upcoming deadlines:
1) Collaborative Research Grants – 12/2012
2) Digital Humanities Implementation – 1/2013
3) Digital Humanities Start-Up Grants – 9/2012
4) Fellowships – 5/1/12
5) Fellowships for Advanced Social Science Research on Japan – 5/1/12
6) Preservation and Access Research and Development – 5/6/12
7) Preservation Assistance Grants for Smaller Institutions – 5/1/12
8) We the People Program – All program deadlines

NSF
Political Science Program
Deadline: Aug 15, Jan 15 annually
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=541

Sociology
Deadline: Aug 15, Oct 15, Jan 15, Feb 15 annually
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5369

Economics
Deadline: Aug 18, Jan 18 annually
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5437

Social Psychology
Deadline: July 15, Jan 15 annually
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5712

Law & Social Science
Deadline: Jul 16, 2012 and Jan 15 & Jul 15 annually thereafter
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5422

Innovation & Organizational Sciences
Deadline: Sep 3, Feb 2 annually
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=1370

Science, Technology and Society (STS) program
Deadline: Aug 1, Feb 1 annually

Decadal & Regional Climate Prediction using Earth System Models (EaSM)
Deadline: May 11, 2012
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5033

ACLS
American Council of Learned Societies
Competitions & Deadlines:
http://www.acls.org/programs/comps/

Upcoming deadlines:
1) ACLS Fellowships – 9/2012
2) Charles A. Ryskamp Research Fellowships – 9/2012
3) Frederick Burkhardt Residential Fellowships for Recently Tenured Scholars – 9/2012
4) ACLS Digital Innovation Fellowships – 9/2012
5) ACLS Collaborative Research Fellowships – 9/2012
6) American Research in the Humanities in China – 9/2012
7) Comparative Perspectives on Chinese Culture & Society – 9/2012
8) ACLS New Faculty Fellows – by nomination only
9) ACLS Public Fellows – 3/21/12
10) African Humanities Program – 11/2012

American Research Institute in Turkey
ARIT Fellowships in the Humanities & Social Sciences in Turkey / University of Pennsylvania Museum
Deadline: 11/1/2012
http://ccat.sas.upenn.edu/ARIT/FellowshipPrograms.html
The American Research Institute in Turkey will offer ARIT Fellowships for research in Turkey for the academic year 2013-2014. Grants for tenures up to one year will be considered, however, some preference is given to projects of shorter duration. ARIT operates hostel, research, and study facilities for researchers in Turkey at its branch centers in Istanbul & Ankara. Scholars and advanced graduate students engaged in research on ancient, medieval, or modern times in Turkey, in any field of the humanities and social sciences, are eligible. Student applicants must have completed all preliminary requirements for the doctorate except the dissertation by June 2013, and before beginning any ARIT-sponsored research. Non-U.S. applicants who currently reside in the U.S. or Canada are expected to maintain an affiliation with an educational institution in the U.S. or Canada. Scholars who have completed their formal training also may apply for ARIT Fellowships sponsored by the NEH.

Harry S. Truman Library Institute – Research Grants
Deadline: April 1, October 1
http://www.trumanlibrary.org/grants
The Harry S. Truman Library Institute for National and International Affairs is the private, non-profit partner of the Harry S. Truman Library. The Institute’s purpose is to foster the Truman Library as a center for research and as a provider of educational and public programs. Research Grants are awarded biannually and are intended to enable graduate students, post-doctoral scholars, and other researchers to come to the Harry S. Truman Library for one to three weeks to use its collections. Awards are to offset expenses incurred for this purpose only. Graduate students and post-doctoral scholars are particularly encouraged to apply, but applications from others engaged in advanced research will also be considered. Preference will be given to projects that have an emphasis on enduring public policy and foreign policy issues and that have a high probability of being published or publicly disseminated in some other way. The potential contribution of a project to an applicant’s development as a scholar will also be considered. Grants of up to $2,500 are awarded.

Health Equity Research
National Institutes of Health
Biomedical & Behavioral Research Innovations to Ensure Equity (BRITE) in Maternal & Child Health (R15)
Full Application Deadline: April 3, October 11
The Eunice Kennedy Shriver National Institute of Child Health & Human Development (NICHD) seeks to increase the diversity of the pool of researchers involved in health equity research related to NICHD mission areas including infant mortality; Sudden Infant Death Syndrome (SIDS); child, adolescent, and/or adult obesity; uterine fibroids; pediatric & maternal HIV/AIDS prevention; violence prevention; health literacy; and outreach and information dissemination. The goal of the Biomedical & Behavioral
Research Innovations To Ensure Equity (BRITE) in maternal and child health program is to stimulate maternal and child health equity research within institutions eligible for the Academic Research Enhancement Award (AREA) R15 program. Program priorities include AREA-eligible institutions that educate students from diverse backgrounds underrepresented in biomedical and behavioral science, including individuals from disadvantaged backgrounds, individuals from underrepresented racial and ethnic groups, and individuals with disabilities as a strategy to contribute to a diverse research workforce.

Minority Health & Health Disparities
National Institutes of Health

The purpose of this Funding Opportunity Announcement (FOA) is to solicit innovative social, behavioral, health services, and policy research that can directly and demonstrably contribute to the elimination of health disparities. Projects may involve primary data collection or secondary analysis of existing datasets. Projects that examine understood health conditions; examine the effectiveness of interventions, services, or policies for multiple health disparity populations; and/or directly measure the impact of project activities on levels of health disparities are particularly encouraged.

Health Disparities Research
American Cancer Society
Priority Focus in Cancer Control and Prevention Research Program: Health Disparities Research
Deadline: April 1, 2012; October 15, 2012

Despite the steady overall decline in cancer incidence and mortality rates in the US, disparities in cancer burdens continue to exist among certain population groups. Such disparities include differences in incidence, prevalence, mortality and burden of cancer and related adverse health conditions, beyond what would be expected under equitable circumstances that exist among specific population groups (which may be characterized by gender, age, race/ethnicity, income, social class, disability, geographic location or sexual orientation) in the US. The American Cancer Society (ACS) is committed to reducing cancer health disparities and has created strategic priorities for eliminating such disparities through research, education, advocacy and service. The ACS has set as a Nationwide Objective the goal of eliminating disparities in cancer burdens by 2015. Towards this goal, the Extramural Research and Training Grants (EG) Department has made the reduction of cancer health disparities a priority area of focus for the Cancer Control and Prevention Research Program with a call for applications in psychosocial and behavioral research and in health policy and health services research that address cancer health disparities. Within the Cancer Control and Prevention Research Program (one of five research programs in the EG department), meritorious applications focusing on disparity reduction will be funded prior to meritorious applications focusing on other areas in cancer control and prevention research. In order to qualify for the Priority Program, the application must explicitly demonstrate its relevance to cancer disparities and specify how the results of the proposed study can be used to reduce disparities.

Behavioral & Social Science Research on Understanding and Reducing Health Disparities
National Institutes of Health
Letter of Intent Deadlines: April 11, 2012; August 14, 2012
Full Application Deadlines: May 11, 2012; Sept 14, 2012

The purpose of this Funding Opportunity Announcement (FOA) encourages behavioral & social science research on the causes and solutions to health and disabilities disparities in the US population. Health disparities between, on the one hand, racial/ethnic populations, lower socioeconomic classes, and rural residents and, on the other hand, the overall US population are major public health concerns. Emphasis is placed on research in and among three broad areas of action: 1) public policy, 2) health care, and 3) disease/disability prevention. Particular attention is given to reducing “health gaps” among groups. Proposals that utilize an interdisciplinary approach, investigate multiple levels of analysis, incorporate a life-course perspective, and/or employ innovative methods such as system science or community-based participatory research are particularly encouraged.

Climate Change & Health: Assessing & Modeling Population Vulnerability to Climate Change (R21)
National Institutes of Health
Letter of Intent Deadline: April 24, 2012
Full Proposal Deadline: May 24, 2012
Note: This program is set to expire on May 25, 2012 so this may be the last round applications will be accepted.

This Funding Opportunity Announcement (FOA) encourages research applications to examine the differential risk factors of populations that lead to or are associated with increased vulnerability to exposures, diseases and other adverse health outcomes related to climate change. Applications may involve either applied research studies that address specific hypotheses about risk factors or population characteristics associated with increased vulnerability, or research projects to develop general models or methods for identifying and characterizing population vulnerability to climate change. The ultimate goal of this research program is to help inform climate change adaptation and public health interventions to reduce current and future vulnerability of various populations to the health effects of climate change. Applications are anticipated to involve a multidisciplinary research team, including experts in health sciences and climatology as well as geography, modeling, statistics, demography, and social and behavioral sciences as appropriate. In addition, partnerships with community-based or advocacy organizations, public health officials, urban planners and others are encouraged.

Data Resources Program 2012: Funding for Analysis of Existing Data
Deadline: May 17, 2012

The National Institute of Justice (NIJ), Bureau of Justice Statistics (BJS), and Office of Juvenile Justice and Delinquency Prevention (OJJDP) have entered into a partnership to request applications under this Data Resources Program (DRP) solicitation for original research using existing data available from the National Archive of Criminal Justice Data (NACJD0) and other public sources. NIJ will manage and fund awards resulting from the solicitation. NACJD houses quantitative and qualitative data from research funded by these agencies, and data are made available online as downloadable, machine-readable files along with necessary documentation. NACJD is maintained by the Inter-University Consortium for Political and Social Research at the University of Michigan and is supported by NIJ, BJS, and OJJDP. Other publicly
available secondary data may also be proposed for use in research funded under this solicitation. DRP is primarily intended to support secondary analysis to inform juvenile and criminal justice policy and practice in the US. Data sources other than NACJD may be proposed, especially if they enhance or add to NACJD by replicating or extending original findings or testing new hypotheses. This joint solicitation for DRP will give highest priority to research addressing compelling crime and justice questions involving juvenile and adult populations.

**National Endowment for Financial Education (NEFE)**

Council for International Exchange of Scholars
Deadline: Aug 1
http://www.iie.org/fulbright

The Fullbright Scholar Program is offering teaching, research, or combination teaching/research awards in over 125 countries for the 2013-2014 academic year. Opportunities are available for college and university faculty and administrators as well as for professionals, artists, journalists, scientists, lawyers, independent scholars and many others. There are awards in 45 specific academic disciplines as well as 167 awards open to all disciplines. Interested faculty and professionals are encouraged to participate in one of our weekly webinars. Each deals with a topic pertinent to the 2013-2014 competition, from regional and discipline information to how to fill out an application. For more information, visit our website at http://www.cies.org/Webinar/. The application deadline for most awards is August 1, 2012. US Citizenship is required. For other eligibility requirements and detailed award descriptions visit our website at http://www.cies.org/us_scholars/us_awards/ or contact us at scholars@iie.org.

**Financial Literacy**

National Endowment for Financial Education (NEFE)
Deadline: the first Tuesday in June & the first Tuesday in December

The National Endowment for Financial Education (NEFE) grants program seeks to fund innovative research and research-based development projects that can make a profound contribution to the field of financial literacy. Inquiries are encouraged from disciplines in fields as diverse as behavior, economics, neuroscience, sociology, psychology, marketing, finance, education, change theory, decision sciences, and others. Of particular interest are pro-active research projects whose findings may cultivate critical thinking in the financial literacy community and development projects that put research recommendations into action. Project outcomes must be capable of achieving traction and measurable impact with audiences such as financial education intermediaries, researchers, practitioners, decision makers, and others who can achieve effective outreach to a target population with an unmet financial literacy need or to the general public. Recent grant awards for research projects have ranged from $100,000 to $208,000 per project. Applicants are invited to submit a Concept Inquiry Form by the deadline for one of NEFE’s two annual cycles. NEFE gives potential grantees an opportunity to participate in informational session calls prior to the Concept Inquiry Form submission deadline.

**Terra Foundation for American Art**

Deadline for letters of inquiry: March 15, 2012
http://terraamericanart.org/grants/academic/

The Terra Foundation for American Art actively supports and initiates historical American art exhibitions, scholarship, and programs in Chicago, the US in general, and around the world. The foundation funds projects that focus on American art dating from 1500 to 1980, made by artists from what is now the geographic US. The foundation’s academic grant program provides funding for projects that are designed to encourage international scholarship on American art topics, as well as scholarly projects with focused theses that explore American art in an international context. Academic funding is available for symposia, colloquia, and scholarly convenings on American art that take place in Chicago or outside the US, and for those in the US that examine American art within an international context and/or include a significant number of international participants.

**National Center for Responsible Gaming – Gambling Disorders**

Deadline: Range from March 1 for some letters of intent to July 1
http://blog.ncrg.org/blog/2012/01/ncrg-announces-availability-15-million-research-grants

The National Center for Responsible Gaming is pleased to announce the availability of grants in support of research on prevention and treatment of gambling disorders. The grants, ranging from $1,500 to $402,500, will be awarded on a competitive basis from the fields of psychology, psychiatry, epidemiology, public health, sociology, economics, neuroscience. Applicants can propose studies on a broad range of research that develops and tests psychosocial or pharmacological approaches for prevention, intervention, treatment or relapse prevention of gambling disorders. The NCRG is especially interested in brief interventions targeted at underrepresented populations, such as minorities, young adults and persons with subclinical gambling disorders. Other priorities of the NCRG include the impact of Indian gaming, gambling and minorities, secondary data analysis, and technology and gambling. There are different categories of funding with different deadlines ranging from March 1 for certain letters of intent to July 1.

**NIH Summer Research Experience Program**

National Institutes of Health
Deadline: Aug 1, 2012

The National Institutes of Health (NIH) Summer Research Experience Program seeks to provide a high-quality research experience for high school and college students and for science teachers during the summer academic break. NIH expects that such programs will: (1) help attract young students to careers in science; (2) provide opportunities for college students to gain valuable research experience to help prepare them for graduate school; and (3) enhance the skills of science teachers and enable them to more effectively communicate the nature of the scientific process to their students. Summer programs would also contribute to enhancing overall science literacy. Summer Research Programs that expand and complement existing summer educational and training programs are encouraged. Prospective applicants should contact staff members at the relevant NIH Institute to discuss their proposed program. Funds may be requested for a minimum of 8 weeks and a maximum of 15 weeks during the summer academic break. The total project period may not exceed 5 years and budgets cannot exceed $100,000 direct costs per year.

**The Lawrence Foundation**

Deadlines: May 31, Nov 1 annually
http://www.thelawrencefoundation.org/grants/

The Lawrence Foundation is a private family foundation focused on making grants to support environmental, education, human services and other causes. The Lawrence Foundation makes both program and operating grants and does not have any geographical restrictions on grants.

**History of Art Grants Program**

Samuel H. Kress Foundation
Deadline: April 15, October 15, January 15
http://www.kressfoundation.org/grants/default.aspx?id=142

The History of Art grant program supports scholarly
projects that will enhance the appreciation and understanding of European art and architecture. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, museum exhibitions and publications, photographic campaigns, scholarly catalogues and publications, and technical and scientific studies. Grants are also awarded for activities that permit art historians to share their expertise through international exchanges, professional meetings, symposia, consultations, the presentation of research, and other professional events. In 2009, 9 awards were made, ranging from $2,700 to $72,500.

Conservation Grants Program
Samuel H. Kress Foundation
Deadline: April 15, October 15, Jan 15

The Conservation program supports the professional practice of art conservation, especially as it relates to European art of the pre-modern era. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, exhibitions and publications focusing on art conservation, scholarly publications, and technical and scientific studies. Grants are also awarded for activities that permit conservators and conservation scientists to share their expertise with both professional colleagues and a broad audience through international exchanges, professional meetings, conferences, symposia, consultations, the presentation of research, exhibitions that include a prominent focus on materials and techniques, and other professional events. Support for conservation treatments is generally limited to works from the distributed Kress Collection, and is coordinated through the Kress Program in Paintings Conservation at the Conservation Center of the New York University Institute of Fine Arts. In 2009, two grants were made, each for $15,000.

REGISTER WITH PIVOT!
Pivot is the new and enhanced version of COS (Community of Sciences). Pivot is the most comprehensive source of funding information available on the Web. CUNY subscribes to Pivot so that, whether your work is in the sciences, arts, or humanities, Pivot funding services can help support and advance your research. The electronic database is an aggregation of funding information that is verified for accuracy, updated for currency, and formatted for quick, targeted searching. With Pivot, you can claim your profile, make changes to your profile, see funding opportunities that are linked to your interests, and identify potential collaborators. Additionally, you can save and share searches, track, tag, and share records, receive funding alerts by email based on your search criteria.

Register here: http://pivot.cos.com/

You can log in using your old COS login & password. For new registrants, please follow the instructions. If you have any questions about registering with Pivot, please get in touch with the Office of Sponsored Programs & Research. Contact information is listed at the beginning of this newsletter.
