The OSPR Beacon:

Humanities and Social Sciences

December 2015

Note from Director:

Happy Holidays! Now that the end of the semester is almost here we here at the Office of Sponsored Programs and Research wish everyone a Happy & Healthy holiday season!

A friendly reminder - on Dec. 8th – the PSC CUNY grants are due. For any of you who have not submitted your grants yet, please do so immediately and we will do our best to get them out but cannot guarantee thorough review if this deadline is not met. Please look for the email sent out a few weeks ago with relevant PSC CUNY information and deadlines. Do not miss this important seed funding for your research,

Look for additional Pivot trainings throughout the new calendar year, as well as the Responsible Conduct of Research Workshop. We look forward to serving you!

Lisa S. Ebert
Director of Sponsored Programs and Research

Grants Panel Project

The Grants Panel Project is underway this semester. This program pairs junior or mid-level faculty with established faculty who have had some success in the pursuit of Research Grants. If you would like to become part of this program, or would like more information about it, please contact Scott Ritchie – scott.ritchie@csi.cuny.edu in the Office of Sponsored Programs and Research for details.

The Spotlight

Please join me in congratulating Dr. Jane Coffee, Dr. Irina Lyublinskaya, Dr. Susan Sullivan, and Dr. Nelly Tournaki on the recent $799,630 award from the National Science Foundation.

In 2006, the City University of New York acknowledged the need to produce graduates who were eligible for NY State initial certification to teach math or science at the 7-12 grade level by establishing the CUNY Teacher Academy at six CUNY institutions, including CSI.

When the seed funding ran out, only CSI decided to continue the program, re-naming it “Teacher Education Honors Academy” (TEHA) and developing a funding plan to continue the program. As a result, in 2009 CSI was awarded an NSF Noyce grant which provided scholarships to students at the junior and senior level in the Teacher Education Honors Academy. Further, in 2011 the Alfred Harcourt Foundation provided support to enable scholarships for students at the sophomore level. And now, with receipt of a second NSF grant in the amount of nearly $800,000, CSI is able to continue offering Juniors and Seniors scholarships that will not only ease the burden of education costs but will provide high need districts with excellent, highly qualified math and science teachers. The strength of the program was the impetus for the award, as graduates of the program have a 100% retention rate as teachers. This is a great achievement for the College of Staten Island. Recruitment efforts for qualified students to join the TEHA are on-going. Any questions about potential students should be directed to Jane Coffee at Ext. 3607. Additional information about the Teacher Education Honors Academy and the Robert Noyce Teacher Academy can be found at www.csi.cuny.edu/teacheracademy.

Congratulations to Jane Coffee, Nelly Tournaki, Susan Sullivan, and Irina Lyublinskaya !!! What a wonderful achievement.

Familiar with Pivot?

Pivot, (built by ProQuest, and formerly known as COS or Community of Service) is the most comprehensive source of funding information available on the internet.

CUNY subscribes to Pivot so that whether your work is in the sciences, arts, or humanities, Pivot funding services can help support your research.

Claim your profile at http://pivot.cos.com/

You can log in using your old COS login and password.

For new Registrants, please follow the “create” instructions. You will be prompted to open up an account.

Please contact the Office of Sponsored Programs and Research if you should have any questions.

For additional funding information or to schedule a Pivot Training session, please contact:
