The Sidney Hillman Foundation is now accepting entries for the 2015 Hillman Prizes which honor investigative journalism and commentary in the public interest. Winners exemplify resourcefulness and courage in reporting, skilled storytelling and social impact. The 2015 prizes will be awarded for work produced, published, broadcast or exhibited in 2014. Categories include books (bound volumes and ebooks); newspaper journalism (in print or online); magazine journalism (in print or online); broadcast journalism (television, web TV, radio, podcast or documentary film at least 20 minutes in total package length); web journalism (photojournalism, computer-assisted reporting, new investigative tools, mapping, crowd sourcing and other multimedia projects); and opinion journalism (includes all types of advocacy, opinion, commentary and analysis, normally short-form and/or frequent, regardless of medium).

**MEDIA CULTURE**

The Sidney Hillman Foundation  
*Receipt deadline January 30, 2015.*

The Law & Social Sciences Program considers proposals that address social scientific studies of law and law-like systems of rules. The Program is inherently interdisciplinary and multi-methodological. Successful proposals describe research that advances scientific theory and understanding of the connections between law or legal processes and human behavior. Social scientific studies of law often approach law as dynamic, made in multiple arenas, with the participation of multiple actors. Fields of study include many disciplines, and often address problems including though not limited to:

1. Crime, Violence and Punishment
2. Economic Issues
3. Governance
4. Legal Decision Making
5. Legal Mobilization and Conceptions of Justice
6. Litigation and the Legal Profession

**SCIENCE, TECHNOLOGY AND SOCIETY (STS) PROGRAM**

*Receipt deadline February 2, 2015.*

The Science, Technology, and Society (STS) program supports research that uses historical, philosophical, and social scientific methods to investigate the intellectual, material, and social facets of the scientific, technological, engineering and mathematical (STEM) disciplines. It encompasses a broad spectrum of STS topics including interdisciplinary studies of ethics, equity, governance, and policy issues that are closely related to STEM disciplines, including medical science.

**FUNDING OPPORTUNITIES**

**New York Council for the Humanities**

The Council funds projects that use the humanities to engage people in analyzing issues, and taking part in the meaningful exchange of ideas and opinions. The goals of our public humanities grants are:

- To encourage informed public discourse in communities across New York State.
- To help New Yorkers deepen their understanding of the world around them.
- To actively engage New Yorkers with issues and ideas.

All projects supported by the Council must be intended for and open to a general public audience. Priority is given to projects serving people for whom such opportunities are rare and projects where dialogue is integral to actively engaging the program(s) target audience(s).

All projects should also involve a strong project team, including members with humanities expertise. The Council does not fund: scholarly research projects or conferences; stand-alone books, catalogues, films or videos; capital projects; political action or advocacy programs.
