Note from Director:

Happy New Year! As we embark on a new calendar year, we here at the Office of Sponsored Programs and Research offer everyone best wishes for a Happy & Healthy 2016!

New for this year - CUNY announces a NEW Interdisciplinary Research Grant program that seeks to support and encourage faculty researchers who will tackle global challenges or problems that affect the needs of urban populations, by combining expertise across disciplines. This new program replaces the long-running CUNY Collaborative Incentive Research Program. Awards are $40,000 for one-year projects. Only authentic interdisciplinary research projects are eligible. Dr. Avrom J. Caplan, Associate University Dean for Research at The City University of New York spoke at CSI on February 4th about this exciting new program. For valuable information about the CUNY Interdisciplinary Research Grant program, please view attached link http://www.cuny.edu/research/faculty-resources/internal-funding-programs/collaborative-incentive-grant.html.

PLEASE NOTE – Submission Deadline is 03/04/16. (A copy of this presentation is available from our office and on the CSI OSPAR Web page)

In addition, look for additional Pivot trainings throughout the new calendar year or call our Associate Scott Ritchie to arrange for one on one Pivot Training. We will also be offering a Responsible Conduct of Research Workshop this semester.

Finally, please remember that RF annual leave must be taken each year.

Other News

Grants Panel Project

The Grants Panel Project continues into this current semester. This program pairs junior or mid-level faculty with established faculty who have had some success in the pursuit of Research Grants. If you would like to become part of this program, or would like more information about it, please contact Scott Ritchie – scott.ritchie@csi.cuny.edu in the Office of Sponsored Programs and Research for details.
