

Summer STEM Bridge Program @ CSI St. George

To explore majors in education, science, math, engineering, technology and health care

July 12–14, 2022

- ◆ Are you excited about the transition from high school to college?
- ◆ Do you want to meet and network with other peers entering the College of Staten Island?
- ◆ Are you interested in exploring fields such as [Geo-mapping](#), engineering, education, biology, public interest tech and health care?
- ◆ Do you want to know about careers in accounting, actuary science, civil engineering, high school teaching, nursing, chemistry, tech entrepreneurship, and others?
- ◆ Do you want to know what courses for these majors look like for college freshman?

Join faculty and staff this summer at the [College of Staten-St. George](#) for a pre-college STEM Summer Bridge Program.

This **FREE** program will consist of:

- ◆ Meeting and networking with peers also preparing to enter college
- ◆ Attending workshops taught by college faculty focused on the joy of studying STEM
- ◆ Spending time IN PERSON with peers in a laid back, non-pressure environment

Eligibility:

- ◆ June 2022 or recent graduate of Curtis, Port Richmond or McKee High School
- ◆ Planning to attend the College of Staten Island in Fall 2022
- ◆ Interested in pursuing study in science, math, technology, education and/or health care professions
- ◆ Available to attend all 3 days of the workshops (July 12th, 13th and 14th, from 9am-1pm)**

**those unable to attend all 3 days will be put on a waitlist and admitted if seats are available

All participants will receive a voucher for \$50 each day of participation, up to **\$150.00**, for use in the [CSI Bookstore](#) to help successfully begin freshman year. These will be distributed at the beginning of the semester with enrollment at CSI.
