

CSI-Wireless for Smart Phones

CSI-Wireless allows you to stay logged into CSI's wireless system on up to 3 devices.

To login to CSI-Wireless, follow the steps below:

1. Go into your Wifi settings and select "CSI-Wireless".
2. Enter your CUNYfirst credentials (firstname.lastname##@login.cuny.edu).
3. Click "Join".
4. When you have successfully joined the network, you will see the Wifi icon next to your mobile service.

NOTE: On Android devices, select "Do Not Validate" for the Certificate and activate these settings:

- EAP method – TTLS
- Phase 2 = PAP

CSI-Wireless for Laptops & Other Devices

1. Open the Wifi settings on your device.
2. Select "CSI-Wireless" from the list of available networks.
3. Click "Connect".
4. Enter your CUNYFirst credentials (firstname.lastname##@login.cuny.edu).
5. When you have successfully joined the network, your Wifi settings will show that you are connected.
