

Verrazano Spring Schedule for Engineering Majors

The 4- or 5-digit section numbers for Verrazano Honors classes change each semester (and occasionally the times change). View the updated list of Verrazano sections at <https://www.csi.cuny.edu/academics-and-research/specialized-programs/honors-programs/verrazano-school/program-requirements/courses>.

You must take the following Verrazano courses:

(1) Honors ENG 151*: College Writing (3 credits); M/W 10:10-12:05
We will sign you up for this.

(2) Honors MTH 130; MTH 231/229: Calculus I – 4 credits total; or **MTH 232**: Calculus II – 3 credits – all are on a M, W 12:20-2:15 schedule with MTH 229 running M,W 2:30-3:20. Engineering students are required to take through Calculus III (MTH 233).

Other Courses To Be Taken:

- (1) ENS 220: Introduction to Computer Engineering (4 credits)
- (2) PHY 120/121: General Physics I with Laboratory (4 credits total) (note: cannot be taken if you will not yet have the required prerequisite/corequisite of MTH 231/229)

As a general note, you should plan to take Verrazano honors sections whenever possible.
